

Samplescience Pty Ltd

www.samplescience.com.au

SAMPLING - MONITORING - TELEMETRY - SERVICE

Specialising in trade waste and process applications.

pH is a key measurement in trade waste discharge

How steady and reliable is your control?

Is your chemical usage high?

Spending too much time at the trade waste plant?

No remote monitoring or control?

If above is relevant to yourselves then suspect wrong transmitter, probe, installation or a combination therefore value to contact us.

Looking for support where client comes first?

Then please give us the opportunity and let us prove in actions.
